

W&B Gold Leaf was founded in 1905 by Jakob Wehrung and Francis Billmeier. The Company was later purchased outright by Frank's son Urban F. Billmeier.

W&B Gold Leaf is now being run by the third and fourth generation Billmeier's, Urban R. and Urban J. Billmeier (production and sales manager) respectively.

Wehrung & Billmeier still produces many of its products by hand or with the help of machinery made in the 1920's.

The company is best known for its high quality 23K gold leaf, Roll Gold products, and Heavy Gold Foil. W&B has always done it's best to ensure that its customers are supplied with first quality materials at fair prices.

In recent years W&B has arranged agreements to directly import high quality genuine Italian made and German made leaf products. Products produced or imported by Wehrung & Billmeier Gold leaf adorns the work of fine art, ornate architecture including state capitols, places of worship, mansions, and quality signs throughout the world.

W&B happily supplies the hobbyist and small user treating them with the same respect and personal touch as any larger customer.
